## Sumitomo Chemical Announces Reorganization

Sumitomo Chemical hereby announces that, as of July 1, 2026, the Company will implement a reorganization as follows.

### Head Office

- The Company will establish the Chemical Asset Management Office as a dedicated organization to address strategic issues at its plants in Japan from the perspective of cross-functional and company-wide optimization. Under it, the Company will establish the Planning & Coordination Office, Chemical Asset Management.
- The Chemical Asset Management Office will accelerate and advance initiatives such as promoting land and infrastructure utilization at the Company's plants in Japan, advancing new business planning and collaboration with other companies, and strengthening cooperation with government agencies and local municipalities.
- Ehime Works will be placed under the oversight of the Chemical Asset Management Office to promote initiatives aimed at enhancing competitiveness.
